

YOUR SAFETY IS OUR PRIORITY CORONAVIRUS UPDATE

We understand there are concerns in our community about the spread of COVID-19.

The safety and wellbeing of our customers, retailers, teams and the broader community is always our priority and as a result we have increased our cleaning roster with additional focus on surfaces which we know people are making regular contact with.

Current advice from authorities is for anyone showing signs of an infectious disease, including fever, sweats or chills to see a doctor immediately and self-isolate.

Good hygiene practices

While visiting the centre please help us keep our community safe by following the below good hygiene practices:

Wash hands regularly, including after touching common surfaces and after coughing or sneezing.

If you happen to cough or sneeze, cover your mouth and nose with a tissue, then dispose of it, or if you do not have a tissue, cover your mouth and nose with your upper sleeve.

We are continuing to monitor and act upon the information being shared from our federal and state health departments.

We thank you for your understanding and cooperation.
Your Centre Management Team.
